

CONNECTIVITY

That Moves With You.

Pathfinder Mini is a man-portable LEO SATCOM and multi-network communications kit, built for rapid deployment in remote and contested environments.

Built for the Edge

- Deploy in minutes
- Man-portable
- Multi-network resilience
- No infrastructure required
- Ready for direct acquisition

Key Specs

Starlink /
Starshield Mini

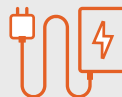

Dual
5G Router

99Wh
Battery

~20 lbs

120-240 VAC /
12-28 VDC

Overview

A compact, man-portable communications kit designed for operators who need reliable connectivity in austere, rapidly changing environments.

Powered by LEO SATCOM (Starlink/Starshield Mini) and a dual-5G rugged router, Pathfinder Mini delivers resilient, multi-path connectivity in a self-contained system that moves with the mission.

Key Capabilities

Multi-Network Connectivity

LEO SATCOM
+ dual 5G + WiFi

Self-Contained Power

99Wh battery
with smart UPS

Rugged, Mobile Design

Nanuk 930 case with MIL-STD
and IP-rated protection

Flexible Deployment

External I/O, remote antennas,
PoE support

Secure by Design

Supports SCATR and secure
overlays

TACCOM delivers mission-ready communication solutions for operators in complex and high-risk environments.
